

# Blood Drive

Saint Vincent de Paul Parish Benvegnu Center

1375 East Spring Lane, Holladay, Utah

Saturday, September 19th, 2020

8:00 a.m. to 1:00 p.m.

## Given the impact of COVID-19 is there going to be blood drive still?

- Yes! The blood need hasn't decreased with the COVID-19 virus
- Hospitals still have scheduled procedures and emergency need for blood

## Is it safe to give blood during this Pandemic?

- All Red Cross staff will do a daily temperature and symptom check prior to coming into work.
- Pre drive temperature checking station at all blood drives outside of the donation room. If a donor registers a 99.6 degree or higher temperature, they will not be allowed into the donation room.
- All donors and Red Cross employees must wear a mask. Masks will be provided.
- The drive layout will be a bit more spread out to make donors comfortable and ensure donor comfort and safety.
- Extra cleaning supplies to wipe down tables, chairs, beds, refreshment table and any other surface
- Local government recognizes blood drives as a necessary service and thus is an approved activity
- Hand sanitizer will be readily available throughout the drive.

## What is being done to minimize the time I spend at the blood drive?

- Great blood drive news! In an effort to eliminate wait times and create a better experience:
  - Every drive will have at least one check in computer at the reception table
  - Every donor will use the check-in computer to sign-in at the drive. The computer will be sanitized between donors
  - Donors cannot register until they have read materials

Using your smart phone or computer:

- Follow this link:

<https://www.redcrossblood.org/give.html/drive-results?dt=WB:PL:DR:PM&ed=09%2F19%2F2020&order=DATE&range=10&sd=09%2F19%2F2020&zipSponsor=stvincent>

- Select a time and follow the steps to reserve your appointment

## Using Rapidpass is the most efficient way to donate!

- On the day of the drive, fill out your Rapidpass:
